

THE ANTARCTICAN SOCIETY

Notice to Members

The Antarctic Society is pleased to announce that the first meeting of the current year will be held at the National Academy of Sciences, 2101 Constitution Avenue, N. W., at 8 p.m. on the evening of 30 September 1964. Dr. Kenneth J. Bertrand, Head of the Department of Geography at the Catholic University of America, will address the Society on the early history of Antarctica. Following the custom inaugurated last year, refreshments will be served in the Guest Hall following the address.

The second meeting will be held on 12 November 1964 also at the National Academy. At that time Dr. Meredith F. Burrill will talk on "Antarctic Geographic Names." Other meetings will include a foreign night, where representatives of an embassy will explain to the Society what their compatriots are doing in Antarctica, a discussion of the exchange of representatives with other countries, the annual business meeting and review of the year's activities and, of course, the annual garden party.

Members are urged to bring friends and associates as this and most other meetings are open to the public.

HENRY M. DATER
Secretary - Historian
