

To unite in a common organization persons interested in Antarctica

T H E A N T A R C T I C A N S O C I E T Y

WASHINGTON, D.C.

Will hold an open meeting at 8 P.M.

TUESDAY, 11 April, 1967

at the

NATIONAL ACADEMY OF SCIENCES
2101 Constitution Avenue, NW

Members, their families, and all persons
interested in Antarctica are invited
to the 1966-67 Memorial Lecture.

DR. J. CAMPBELL CRADDOCK

GEOLOGY IN ANTARCTICA

Dr. Craddock, Associate Professor of Geology, University of Minnesota:

B.A., DePauw University, 1951. Major: Geology. Minor: Mathematics.
Phi Beta Kappa. Teaching assistant in Geology, 1950-51.
M.A., Ph.D., Columbia University, Geology, 1953, 1954. Higgins
Fellow, 1951-52; National Science Foundation Fellow, 1952-53;
teaching assistant in Geology, 1953-54; field geologist, N.Y.
State Museum, summers, 1952, 1953.

A wealth of professional and field experience which included:
geologist, airborne traverse, Antarctica, 1959-60; geologist, U.S.
Bellingshausen Sea Expedition, 1960; leader, Jones Mountains Expedition,
Antarctica, 1960-61; director, Minnesota-Wisconsin gravity field program,
1961-65; director and leader, Ellsworth Mountains Expedition, Antarctica,
1962-63; director, Ellsworth Mountains Expedition, Antarctica, 1963-64;
director, Whitmore Mountains Expedition, Antarctica, 1964-65; editorial
advisor, Geology folio, Antarctic Atlas, American Geographical Society,
1964 - ; delegate to various International Geological Congresses.

Refreshments will be served after the meeting.

GEORGE A. DOUMANI
Secretary

Science Policy Research Division
Library of Congress
Phone: 783-0400 Ext: 8460

SIR CHARLES WRIGHT

First an apology for having caused Sir Charles unnecessary embarrassment.

Since 1956, Sir Charles has been a Consultant under Contract to the Defense Research Board of Canada. The statement in the March 1967 Antarctic Society Notes - "Director of Pacific Naval Laboratory since 1956" - is incorrect.

From a letter dated 17 March 1967 -

- - " I am now officially transferred (with the contract) to the University of British Columbia to work for Professor Jacobs, also in the Institute of Earth Sciences, with support from our National Research Council. " ---

For his current series of projects, our best wishes.

For our inexcusable careless research we wish that there was some better way of atonement than sincere regret for the 'goof.'

THE 21 MARCH 1967 MEETING

Harry Francis should have retitled his illustrated account - HOW AN AMERICAN SCIENTIFIC OBSERVER EARNED HIS BOARD AND KEEP WITH THE JAPANESE ANTARCTIC RESEARCH EXPEDITION VII, 1965-1966.

About ninety members and friends joined Harry vicariously on the voyage of the icebreaker FUJI and in the monumental task of reopening, rebuilding, and expanding SHOWA station. The spirit of the Antarctic Treaty was truly exemplified by Mr. Francis in both his observations and the work he contributed to this successful Japanese expedition. Future American scientific observers with Japanese Antarctic expeditions have much to live up to.
