LECTURER QUESTIONABLE

One of the purposes of the Society set forth in the Articles of Incorporation is "to encourage interest in and to interpret effectively the increasing importance of Antarctica", It was felt by the Board of Directors and the Education Committee that the compilation of a list of members willing to give lectures to various groups on particular topics pertaining to Antarctica would aid in meeting this worthwhile objective and at the same time render a service to the membership.

The response has been most disappointing.

Another copy of the questionnaire is enclosed. Your cooperation is earnestly solicited,
