DR. PETER SCOTT

"ANTARCTICA--PAST, PRESENT AND FUTURE"

Peter Scott will be returning from the Antarctic when he stops in Washington to speak to the Antartican Society, and his views on Antarctica will be illustrated by slides. Dr. Scott is a well known naturalist and conservationist, being Director of the Wildfowl Trust in England, Vice President and Chairman of the Trustees of the World Wildlife Fund, Chairman of the Survival Service Commission of the International Union of the Conservation of Nature and Natural Resources, and the Fauna Preservation Society, and a member of the International Ornithological Committee. The May 1970 issue of "Smithsonian" has an article on him, in which he is described as "...Commander of the Order of The British Empire, twice winner of the Distinguished Service Cross for naval derring-do, thrice holder of the premier British trophy for small boats, Olympic medalist, sometime National Gliding Champion, explorer, familiar guru of British television, painter, author of a dozen books, ornithologist extraordinary, twice Doctor of Laws honoris causa, counselor to the Establishment and friend of kings ..." Peter Scott is an excellent speaker, and should not be missed on this rare visit to Washington.
